RE: Editors' Choice - Top Product Picks
Buildings magazine, June 2008 for
Aspen Collection by **CGI Windows & Doors**

CONGRATULATIONS!

The Aspen Collection by CGI Windows & Doors has been selected as one of this year's Editors' Choice - Top Product Picks, which will be featured in the June 2008 issue of *Buildings* magazine.

Thousands of products were reviewed by our editorial staff and facilities professionals, and an elite group - 100 - was selected based upon a number of factors: aesthetics (when applicable), ease of use, durability/life-cycle, efficiency or applicability, universal appeal, sustainable/green elements (when applicable), and more.

The June issue will feature a description, picture (when possible), and editorial commentary of each of this year's Top Picks, which will be of great interest to our more than 72,000 readers - building ownership and facilities management decision-makers, who control more than 4.4 million unique commercial and institutional buildings across North America.

Once again, congratulations! We're delighted that your product/service will be featured in our June 2008 issue as one of this year's Top 100 Product Picks.
