### **CGI Window & Doors Announces Miami Dade Large Missile NOA Approval for its Series 560 Sliding Glass Door**

**Miami, FL (June 16th, 2008)** – CGI Window & Doors announced that they have received Miami–Dade **NOA No 08-0304.05** large missile approval for its impact resistant aluminum sliding glass door.

The **Series 560 Sliding Glass Door** has a large missile rating of up to +120 PSF / -170 PSF. Features include a streamlined and clean design, stainless steel hardware components, a maximum security commercial locking system tandem stainless steel rollers with precision bearings, and a very simple installation process.

CGI invested years of engineering research into developing the new Series 560 Sliding Glass Door which complements its existing line of impact resistant aluminum products. “What makes this door unique is its clean design and incredible performance of +120/-170 PSF,” says Brian Evans, President and CEO of CGI. “Simply put, it’s the strongest sliding glass door in the market, yet competitively priced.”

## **ABOUT CGI WINDOWS & DOORS**

CGI has a strong reputation for offering architectural-grade impact windows and doors with unique features and high-quality construction that exceed industry standards. CGI products have been specified and installed in some of the most prestigious residential and commercial projects in South Florida, including the Palm Beach Breakers Hotel historical restoration. Recently, CGI was named one of the industry’s top 100 window companies by Window and Door Magazine. Established in 1992, the company was the first impact window and door manufacturer to offer PVB laminated glass designed exclusively to meet the Miami-Dade County impact-resistant protocols.
