

NEWSFRONT

BRINGING YOU THE LATEST IN IMPACT RESISTANT WINDOWS & DOORS

CGI NewsFront

Welcome to the first issue of *CGI NewsFront*. This electronic-newsletter has been developed for CGI dealers, providing important information on CGI product & services and the glazing industry. We hope you enjoy this electronic communications and welcome your feedback.

We are pleased to introduce our new branding campaign that features an updated look and feel, as well as our new slogan: "We're Stronger." Look for our revamped logo in our 2007 marketing materials and on our completely revised website.

Lead Times

Effective February 1, 2007, CGI will be offering new standard lead times of 8 to 10 weeks. The new lead times can be credited to more emphasis on strategic planning, better inventory control and a more streamlined approach with the new production facility.

"This is a major step in our ongoing commitment to improve our overall service to our dealers" say Jerry Schimmel, Director of Business Development.

State-of-the-art

We have the first year under our belt at our new 110,000 square-foot facility in Miami at 10100 NW 25th Street, that features a state-of-the-art manufacturing facility, plus an extensive 2,300 square-foot showroom for use by our dealers, builders, architects and their clients. Our new location allows us to meet the increasing consumer demand for our impact-resistant windows and doors and better showcase our extensive, high-end product lines. We invite you to stop by.

New CGI Website

CGI will be introducing its new website this month at www.cgiwindows.com. You will be able to experience the broad range of products and informational tools we've added. We will continue to add information to the site to support your marketing and sales efforts. We welcome your thoughts and feedback on the new site.

CGI has a strong reputation for offering architectural grade impact windows and doors with unique features and high quality construction that exceed industry standards. CGI products have been specified and installed in some of the most prestigious residential and commercial projects in South Florida, including Fisher Island. Established in 1992, the Company was the first impact window and door manufacturer to offer PVB laminated glass designed exclusively to meet the Miami-Dade County impact resistant protocols. The company has recently moved into a new 110,000 square foot facility in the Miami area.
