ESTATE ENTRANCES  
Peace of mind has never looked so good

Welcome back to our newsletter!

We have updated the format to provide you with the latest information on CGI and our products. In this premiere issue, take a few minutes to see what's new at CGI: we'll talk about products and upgrades of interest to you, share a quick peek at a different CGI employee each issue and perhaps throw in a little contest to sweeten the pot.

We hope you enjoy this quarterly newsletter, and we look forward to working together to move the window and door business forward in 2013.

"Alone we can do so little, together we can do so much." - Helen Keller

Have a project (or two, or three ...) you're especially proud of that uses CGI windows and/or doors? Tell us about it - or better yet, show us!

Send in a nice, color, high-res photo of your project, telling us the location and products used. We'll select one photo as our winner and write about it in the next newsletter. Plus, you'll **receive a \$25 Visa gift card** for your efforts if your photo is chosen!

Enter as many times as you like. We'd love more photos to use on the Web site and in our marketing.

Submit your photos and entry information to:  
[cgimarketing@cgiwindows.com](mailto:cgimarketing@cgiwindows.com).

## Graduate from Doors 101 Try CGI's New Sentinel 160 Door

### Same Price Point, Better Quality!

Brand-new from CGI! This door comes standard with our patented single action 3 point lock. No more confusing double locks! Design pressures up to +80/-80 and self mating sidelites.

- \* 4" sill track depth, perfect for retrofit!
- \* Concealed fasteners
- \* Extruded snap on glazing beads
- \* Square or slanted sill cover

\* SS package comes standard

Options include Brushed Satin, Tuscan Bronze, or Polished Brass levers and various glass choices.

The 160 will replace our 450 SN. Any orders or quotes already in the system will be honored. Contact Estimating for any changes to 450SN quotes.

Give us a call and check it out for yourself!

## **Improved Sentinel 150 Sliding Glass Door**

### **We listened!**

The Sentinel 150 Sliding Glass Door has been improved. We took your feedback and made a great door even better. Same value price point and we have made the following updates:

- \* Concealed installation screws
- \* Updated two-point lock
- \* Improved fixed panel clips
- \* A redesigned door stop

Don't forget the Sentinel 150 SGD still is available with pockets, and in 3 track configurations up to +80/-80 DP. With a track depth of 4 3/4" in 2 track and 6" in 3 track configurations, the door is perfect for retrofit.

## **We have upgraded our Estate 238 casement**

### **Check out our new hardware!**

Our Estate 238 casement now comes standard with a multipoint, single action lock. The single action feature eliminates the need for multiple cam locks. This locking system features multiple locking points, stainless steel components and maintains the same design pressures that CGI is famous for.

The Estate 238 casement will also now come standard with a new stainless steel operator. The operator is a significant upgrade with a more contemporary design boasting a rounded profile with a nesting handle design.

Both of these upgrades will come standard, no need to do anything different or pay extra.

**Please note orders for the Estate 238 casement released into production after 5pm April 26th will have the new updated hardware.**

**Multipoint, Single Action Lock**

Contemporary Stainless Steel Operator with Nesting Handle

### **CGI Employee Spotlight!**

**Irina Heyaime-** Inside Sales Manager  
3 years with CGI

1. Favorite vacation spot?
